EDUCATION

SAVEETHA UNIVERSITY

B.E. IN ELECTRONICS AND
COMMUNICATION

Jul 2013 | Chennai, IN

LINKS

LinkedIn: www.linkedin.com/in/jitendra-kumar-nayak-6b599881

SKILLS

TECHNICAL

Dotnet(C#) • .NET Core • ASP.NET
Web API/ RESTful Services
SQL Server • Entity Framework
Microsoft Azure • Microservices
HTML • CSS • JavaScript
Azure DevOps • GitHub • CI/CD
Familiar:
Angular • Snowflake • PostgreSQL
• CosmosDB

FUNCTIONAL

Scrum Master • Agile methodologies
Sprint Planning • Team Leadership

TOOLS AND OTHER SKILLS

Git • Visual Studio • Postman
Jira • Confluence

CERTIFICATION

- Certified Scrum Master (CSM)
- Microsoft Certified: Azure Fundamentals (AZ-900)
- Career Essentials in Generative AI by Microsoft and LinkedIn
- Google Project Management : Professional by Google

EXPERIENCE

COGNIZANT TECHNOLOGY SOLUTIONS

SR. ASSOCIATE – PROJECTS

Jul 2021 - Present | Bangalore, IN

- Led a high-performing Scrum team, driving seamless Agile execution, sprint planning, backlog grooming and timely delivery of high-quality software solutions.
- Designed, developed and deployed enterprise-grade applications using .NET Core(C#), WebAPIs and Azure Cloud, ensuring high availability and security.
- Aligned engineering roadmaps with business objectives by collaborating with Product Owners and Key Stakeholders to drive innovation and value delivery.
- Implemented best coding practices, design patterns and rigorous code reviews, resulting in 25% improvement in code maintainability and system performance.
- Managed, mentored and upskilled cross-functional teams, fostering a culture of continuous learning and innovation, leading to a 20% increase in team productivity.

MOUSER ELECTRONICS - A BERKSHIRE HATHAWAY COMPANY

WEB DEVELOPER

Apr 2020 – Jul 2021 | Bangalore, IN

- Developed core features using ASP.NET MVC and Entity Framework, ensuring high performance application delivery.
- Created RESTful APIs to enhance application functionality and third-party integrations.
- Conducted automated testing (N-Unit) and performance optimizations, ensuring 99.9% application uptime.
- Designed and implemented microservices using .NET Core and Entity Framework Core, improving application scalability.

COGNIZANT TECHNOLOGY SOLUTIONS

SOFTWARE ENGINEER

Jan 2014 – Apr 2020 | Chennai, IN

- Developed high-impact applications using .NET Core, .NET Framework, and MVC, improving system reliability and user experience across multiple domains.
- Managed end-to-end phases of the Software Development Life Cycle (SDLC), including requirements gathering, UI design, coding, testing, and deployment.
- Led UAT testing & stakeholder discussions, ensuring applications met compliance and audit standards.

PROJECTS

TELEMATICS-BASED EQUIPMENT MONITORING PLATFORM

.Net Core(C#), Restful API, SQLServer, Azure Services, DevOps

- Developed APIs to collect, cleanse, and transform real-time IoT/telematics data from machines and expose the processed data for various business applications.
- Ensured data accuracy, scalability, and security for enterprise-wide integration.

E-COMMERCE PLATFORM FOR ELECTRONIC COMPONENTS

.Net Core(C#), WebAPI, Html, CSS, Javascript

- Developed and maintained RESTful .NET API services for a high-traffic e-commerce platform.
- Implemented authentication, authorization, and payment gateway integrations.
