Summary

Results-driven **Engineering Leader** with **12+ years of experience** leading high-performing Agile teams and delivering scalable, cloud-native enterprise solutions using **.NET, Azure, Microservices, and RESTful APIs**. Proven expertise in people and stakeholder management, solution architecture, system design, technical hiring, capacity planning, and engineering leadership.

Skills

Technical Expertise: C#, .NET, .NET Core, REST APIs, Microservices, SQL Server, PostgreSQL, Snowflake, Clean Architecture, Event-Driven Architecture,DDD, SOLID, Design Patterns, System Design, CQRS, OAuth 2.0, OpenID, JWT, JavaScript, HTML, CSS, ReactJS

Cloud & DevOps: Microsoft Azure, Kubernetes, Docker, Azure App Service, Azure Functions, Azure Service Bus, Azure Event Hubs, Azure Key Vault, Azure Cosmos DB, Azure Application Insights, Entra ID, Azure DevOps, CI/CD, GitHub, AWS, S3, SQS, SNS, EC2, Lambda, CloudWatch

Leadership & Management: Technical Management, Engineering Leadership, People management, Stakeholder Management, Agile & Scrum Delivery, Team Development & Coaching, Resource & Capacity Planning, Roadmap Planning

Methodologies & Tools: Agile (Scrum), Jira, Confluence, Git, Visual Studio, Postman/Bruno

Experience

Senior Associate – Projects

Jul 2021 – Present

Cognizant Technology Solutions

Bangalore, IN

- Architected and delivered enterprise-scale cloud-native applications using **.NET, C#, Azure Cloud Services, Microservices, AWS and RESTful APIs**, ensuring scalability, security, and high availability.
- Led and managed a high-performing **cross-functional engineering team** comprising developers and QA engineers, driving Agile delivery, technical excellence, continuous improvement, and successful execution of enterprise-scale initiatives in collaboration with business stakeholders and product owners.
- Owned end-to-end delivery of enterprise applications, including solution design, effort estimation, sprint planning, release planning, risk mitigation, and production deployment.
- Conducted technical interviews and candidate evaluations for .NET and Azure engineering positions, contributing to hiring and team growth initiatives.
- Established engineering standards, architecture governance, code review practices, and CI/CD strategies, improving maintainability and delivery quality.
- Led **architecture reviews and system design discussions**, providing technical direction on scalability, performance optimization, resiliency, and cloud adoption strategies.
- Implemented microservices-based architectures and API-driven integrations, reducing application latency by 30% and improving system interoperability.

Web Developer

Apr 2020 – Jul 2021

Mouser Electronics

Bangalore, IN

- Engineered performance-optimized web solutions using **ASP.NET MVC, Entity Framework** and **SQL Server**.
- Built and integrated **RESTful APIs** to support modular application design and third-party interoperability.
- Designed microservices using **.NET Core**, enhancing application scalability and modularity.
- Performed unit testing using **NUnit**, improving system reliability and reducing defects by 40%.

Associate

Jan 2014 – Apr 2020

Cognizant Technology Solutions

Chennai, IN

- Developed robust applications across multiple domains using **.NET Core, MVC**, and legacy frameworks.
- Managed end-to-end phases of the Software Development Life Cycle (SDLC), including requirements gathering, UI design, coding, testing and deployment
- Collaborated with stakeholders and led **UAT testing**, ensuring adherence to compliance and business standards.
- Resolved critical production issues and implemented system enhancements, reducing downtime by 35%.

Key Projects

Telematics-Based Equipment Monitoring Platform

.NET Core, Azure, AWS, REST APIs, SQL Server, PostgreSQL, Snowflake, Cosmos DB, DevOps

- Designed and implemented a scalable IoT data ingestion architecture using .NET APIs and Azure services, enabling secure collection and processing of telemetry data from industrial equipment.
- Applied **Clean Architecture** and **SOLID principles** for long-term maintainability.

E-Commerce Platform for Electronic Components

.NET Core, Azure, Web API, JavaScript, HTML/CSS, Kubernetes, Docker

- Built robust .NET APIs for product search, checkout, and order management.
- Integrated secure payment gateways and user authentication systems.

Education

B.E. in Electronics and Communication

Saveetha University

2009 - 2013

Chennai, IN

Certifications

- **Microsoft Certified: Azure AI Fundamentals (AI-900)**
- **Microsoft Certified: Azure Fundamentals (AZ-900)**
- **Certified Scrum Product Owner (CSPO)**
- **Certified ScrumMaster (CSM)** with AI for Scrum Masters
- **Google Project Management: Professional Certificate**
- **Career Essentials in Generative AI** – Microsoft & LinkedIn
